

Meet Remi

Remi is my therapy dog who comes to the office every day with me! She is very friendly but will also sit quietly behind my chair if a child is afraid of dogs. She likes to sniff everyone who comes into the office and if someone wants to play with her ... she will play fetch and sometimes do tricks. She is professionally trained so she does not jump on people or lick anyone, and she loves to lay near children while they play. She will even be the patient if a child wants to use my doctor kit on her.
